

Team name	Ke4 Water Kefir
Product	Natural fermented soft drink which is low in sugars and calories and contains living
School	Maastricht University
Captain	Lorenzo van Nistelrooij
Teamleden	Britt van Belkom Henry Thiel Tessa van der Geld
Coaches	Alvaro Garcia & Freddy Troost

Ke4 Water Kefir is a living soda which is low in sugar. The drink is obtained by using bacteria to ferment the water into a refreshing and colorful beverage. Ke4 comes in a four pack of four different flavors made out of four ingredients: sugar, fruits, water, and kefir grains. As the bacteria in the drink use the sugar to produce carbon dioxide, acid, and aromatic compounds, the drink is low in sugar, slightly sparkling, fruity and refreshing, making it a good alternative for currently available light sodas.
